HIGHLAND FINE

There are few tougher tests for auxiliary sailboats than these two major long distance races . . . one in the Great Lakes, the other in the Atlantic. Competition is superior. The "hot" stock boats are there, many with factory skippers and crew.

That's why the victories by these Tartan 34s (handled, of course, by their owners) speak so eloquently for themselves.

When you become interested in winning, long distance or short, you should become interested in one of our three proven performers. Tartan 27, Tartan 34 and Tartan 37. Just drop us a line and we'll respond with the industry's most comprehensive boat data.
